## Pharmacy name: **Richard Clitherow Ltd**

**Address: 22 Dovecot Place, LIVERPOOL, Merseyside, L14 9PH**

**Pharmacy reference: 1091721**

**Type of pharmacy: Community**

**Date of inspection: 18/03/2026**

### Pharmacy context and inspection background

This community pharmacy is situated on a parade of shops in Dovecot, Liverpool. The pharmacy dispenses NHS prescriptions, private prescriptions and sells over-the-counter medicines. It also provides a range of services including supplies for people who use drugs, and the NHS Pharmacy First service. The pharmacy supplies some people with medicines in multi-compartment compliance packs to help them take their medicines at the right time.

This was a reinspection following an inspection in August 2025 where the pharmacy did not meet Standards 1.1, 1.2, 4.2, and 4.3. This reinspection focused on those Standards which had previously not been met. The pharmacy had introduced new written procedures, which had been read and signed by members of the pharmacy team. When mistakes occur, a near miss record is used and the team can demonstrate what action was taken to learn from their mistakes. But they did not complete a formal review of the records to look for underlying trends. The pharmacy had introduced new processes for the substance misuse service. Medicines are assembled in advance and double checked by another member of the team when they are prepared and subsequently checked again before being supplied. Storage conditions of stock medicines are being correctly monitored, with fridge temperatures checked and found to be within the correct range each day. The expiry dates of medicines are checked at least every three months, and records of these activities are kept.

**Overall outcome: Standards met**
