Pharmacy context and inspection background

This community pharmacy is located next to a large medical centre on the outskirts of West Bromwich town centre. It is open extended hours across seven days. The pharmacy dispenses NHS prescriptions, private prescriptions and sells over-the-counter medicines. It also provides a range of NHS services including the NHS Pharmacy First service, a local minor ailments scheme, blood pressure monitoring and contraception services. Private services available include travel vaccinations and a phlebotomy service. The pharmacy supplies medicines in multi-compartment compliance packs to some people to help them take their medicines at the right time.

This was a reinspection following an inspection in July 2025 where the pharmacy did not meet Standards 1.1, 1.2, 1.6, 1.7, 4.2 and 4.3. This reinspection focused on those Standards which had previously not been met. The pharmacy has taken steps to address the issues identified at the last inspection such as implementing new working procedures, and it has improved its stock management. However, it should continue to ensure new procedures are embedded into daily practice, especially with regard to recording and analysing near miss errors for learning opportunities.

Overall outcome: Standards met
