Pharmacy reference: 1092905

Type of pharmacy: Community

Date of inspection: 26/09/2025

Pharmacy context and inspection background

This extended hour pharmacy is located on a busy main road Derby. Its main activity is dispensing prescriptions, and it offers some services such as the supervised consumption of medicines and the New Medicine Service. A medicine delivery service is available, and the pharmacy supplies some people with medicines in multi-compartment compliance packs to help them take their medicines. It also provides a private ear wax removal service.

This was a reinspection following an inspection in February 2025 where the pharmacy did not meet Standards 1.1, 4.2 and 4.3. This reinspection focused on those Standards which had previously not been met. Standard 1.6 was also reviewed. Since the last inspection, the pharmacy has ceased selling medicines online via its website <https://www.your247chemist.com/>, and there are no plans to reinstate this in the immediate future. As a result, the pharmacy is now meeting standards 1.1 and 4.2 which related to its online services. However, the pharmacy had not sustained the actions initially taken to improve the management of its stock medicines. And it had fallen behind on some of the required record keeping.

Standards not met

Standard 1.6

- The pharmacy largely keeps the records it needs to in line with legal requirements. However, it does not frequently audit records for its higher-risk medicines which has resulted in discrepancies. This also heightens the risk of errors and possible diversion issues.

Standard 4.3

- The pharmacy does not always manage its stock medicines in a safe and effective way. It does not store cold chain medicines under the required conditions. And it sometimes stores medicines outside of its original packaging without making a record of the required details to identify the medicines in the event of a safety recall. So it cannot always demonstrate that its stock medicines are safe to supply. And some of its stock medicines are not stored securely to prevent unauthorised access.
