Pharmacy context and inspection background

This is a community pharmacy located next to a doctor's surgery on a high street in central Southampton. The pharmacy dispenses NHS and private prescriptions. And its team members sell over-the-counter medicines and provide advice. The pharmacy offers services such Blood Pressure testing, Pharmacy First and the New Medicine Service (NMS). The pharmacy also offers a contraceptive service, a smoking cessation service and a flu and covid vaccination service.

This was a full routine inspection of the pharmacy. The pharmacy was last inspected in August 2016.

Standards not met

Standard 1.6

- The pharmacy has discrepancies between actual stock counts and recorded stock counts for checked controlled drugs. The pharmacy needs to ensure that checks on medicine balances, in particular controlled drugs, are carried out regularly to prevent discrepancies. This will ensure that all medicines can be accounted for and assure the safe and secure handling of controlled drugs.

Standards that were met with areas for improvement

Standard 1.2

- The pharmacy could do more to regularly record incidents and share all the learning with the team. This will allow more opportunity to learn from incidents and find ways to continually improve processes.

Standard 4.3

- The pharmacy could do more to ensure medicines are stored in their original packs until the moment they are required. This will ensure medicines are stable for as long as possible and there is a reduced chance of mixing tablets up.
