Date of inspection: 18/03/2025

Pharmacy context and inspection background

This pharmacy is located in a residential area in Rastrick. Dispensing NHS prescriptions is its main activity, and it also sells a range of over-the-counter medicines. Its team members provide medicines to some people in multi-compartment compliance packs to help them take their medicines safely. A medicine delivery service is available for people to have their medicines delivered to them.

This was a reinspection following an inspection in August 2024 where the pharmacy did not meet Standards 1.2, 1.6, 2.1, 3.1 and 4.3. This reinspection focused on those Standards which had previously not been met. Since the last inspection team members had started recording mistakes that were identified during the dispensing process, and these were discussed to help learn from them. Record keeping requirements had improved and were being maintained in line with legal requirements. And some areas of the pharmacy had been tidied and organised.

Overall outcome: Standards not all met

Required Action: Improvement Action Plan

Standards not met

Standard 4.3

- The pharmacy does not adequately manage all its medicines to ensure they are always stored correctly or remain fit for purpose. Some medicines that need cold storage conditions are not appropriately monitored. So it may not be able to demonstrate that the medicines are being stored at the right temperature and are safe to supply.

Standards that were met with areas for improvement

Standard 3.1

- The pharmacy is generally clean and tidy but due to the workload pressures, the team have fallen behind with keeping the dispensary tidy. This detracts from the professional image expected of a healthcare setting.

Principle 1: The governance arrangements safeguard the health, safety and wellbeing of patients and the public
