

Registered pharmacy inspection report

Pharmacy name: **Al Shafa Pharmacy**

Address: 93 Shireland Road, SMETHWICK, West Midlands, B66 4QJ

Pharmacy reference: 1103406

Type of pharmacy: Community

Date of inspection: 05/02/2025

Pharmacy context and inspection background

This community pharmacy is located within a parade of shops, in a residential area of Smethwick. It opens late evenings and at weekends. The pharmacy dispenses prescriptions and provides some medicines in multi-compartment compliance aid packs, to help people take them at the right time.

This was an inspection of the pharmacy to follow up on information of concern received by the GPhC about an online service provided by the pharmacy involving the supply of Pharmacy-only and General Sales List medicines via a third-party digital platform. Not all the standards were inspected on this occasion.

Enforcement action has been taken against this pharmacy, which remains in force at the time of this inspection, and there are restrictions on the provision of some services. The enforcement action taken allows the pharmacy to continue providing other services, which are not affected by the restrictions imposed.

Overall outcome: Standards not all met

Required Action: Statutory Enforcement

Standards not met

Standard 1.1

- The pharmacy does not adequately manage the risks associated with selling medicines online. It does not have sufficiently robust procedures and safeguards in place to make sure it is selling medicines, including medicines known to be abused, misused or overused, safely through online third-party platforms. The pharmacy's lack of meaningful due diligence and planning for the new service means that legal obligations and good practice requirements are not being met. The pharmacy cannot demonstrate that people are being suitably assessed to ensure the medicines supplied are safe and appropriate for them. And the pharmacy has not carried out any audits to demonstrate that its systems are safe and ensure that medicines are being sold appropriately online.

Standard 4.2

- The pharmacy does not obtain all of the information needed to ensure a medicine is safe and appropriate for the person when they purchase it through a third-party platform. And it continues to sell over-the-counter medicines online that are at higher risk of being abused, misused or overused without having sufficient safeguards in place.
