

# Registered pharmacy inspection report

## Pharmacy name: Middleport Pharmacy

**Address:** 185 Newcastle Street, STOKE-ON-TRENT, Staffordshire, ST6 3QJ

**Pharmacy reference:** 1105404

**Type of pharmacy:** Community

**Date of inspection:** 27/11/2025

### Pharmacy context and inspection background

This community pharmacy is located in a residential area, in Stoke-on-Trent. The pharmacy dispenses NHS and private prescriptions. Its team members sell over-the-counter medicines and provide healthcare related advice. The pharmacy offers a few NHS services such as Pharmacy First, the Pathfinder service and blood pressure testing. The pharmacy also provides flu vaccinations.

This was a full routine inspection of the pharmacy. The pharmacy was last inspected in December 2015.

**Overall outcome:** Standards not all met

**Required Action:** Improvement Action Plan

### Standards not met

#### Standard 4.3

- The pharmacy does not always store and manage its medicines appropriately. It does not have a robust process to check for expired medicines and it stores some of its medicines outside of the original packs without adequate labelling. This could make it difficult to identify recalled batches or expired medicines.

- The pharmacy cannot always demonstrate that it stores cold chain medicines appropriately to help make sure they remain safe to supply.

### **Standard 5.1**

- The pharmacy does not have appropriate equipment for measuring liquid medicines or counting loose tablets and capsules.

## **Standards that were met with areas for improvement**

### **Standard 1.1**

- The pharmacy has standard operating procedures (SOPs) available for the services it provides, but some of its team members have not confirmed their understanding of the SOPs which means they may not always work effectively or fully understand their roles and responsibilities.

### **Standard 4.2**

- The pharmacy's multi-compartment compliance pack service could be more effectively managed by checking and sealing the packs promptly, adding product descriptions, and routinely including packaging leaflets. This would help to ensure that packs are accurate, and people have all of the information they need to take their medicines safely.
