Pharmacy context and inspection background

This pharmacy is in a health and social care centre close to the centre of Scunthorpe in North Lincolnshire. Its main services include dispensing NHS prescriptions, selling over-the-counter medicines and providing health advice to people. It provides NHS consultation services including the Pharmacy First Service, blood pressure checks, Pharmacy Contraception Service, and the New Medicine Service (NMS). The pharmacy also provides seasonal vaccination services and offers a private ear health service to people.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in October 2015.

Overall outcome: Standards met

Required Action: None

Areas of good practice

Standard 1.2

- The pharmacy team is committed to monitoring the safety of the services it provides through regular structured reviews and personal reflections. It uses information from its own mistakes as well as trend data shared by its superintendent pharmacist's team to help support it in reducing risk. And it keeps the actions it takes under review to ensure they are working effectively.

Standard 2.2

- Pharmacy team members are dedicated to continual development through engaging in regular training opportunities. They demonstrate how they use the knowledge they gain through learning to support them in delivering effective person-centred care.

Standard 4.2

- The pharmacy works closely with other healthcare professionals to meet the needs of the local community using its services. It has robust processes for identifying higher-risk medicines during the dispensing process and its team members record the safety checks they make when dispensing these medicines.
