Date of inspection: 01/09/2025

Pharmacy context and inspection background

This community pharmacy is located in a residential area in the same building as a medical centre in the town of Bury St. Edmunds in Suffolk. It provides a variety of services including sales of Pharmacy only (P) medicines, dispensing of NHS and private prescriptions, the Pharmacy First service and a travel clinic under Patient Group Directions (PGDs).

This was a full inspection of the pharmacy. The pharmacy was previously inspected in April 2016.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 1.1

- The pharmacy has an up-to-date set of standard operating procedures (SOPs), but these have not been read by several team members. So, the team members may not be aware of the correct procedures to follow when working in the pharmacy. The pharmacy has given assurances that all remaining team members will read the SOPs and sign to confirm they have read them.

Standard 1.6

- The pharmacy keeps the records it is required to by law. But some records including the private prescription register and responsible pharmacist (RP) record are missing some details such as prescriber details and sign out times. The pharmacy has given assurances that going forward all details will be recorded for these records.

Standard 4.2

- Overall, the pharmacy provides its service safely. But it does not complete ongoing checks on emergency medicines such as the anaphylaxis kit. So, people receiving a vaccination and having a reaction may experience a delay in treatment. However, during the inspection the pharmacy ordered a replacement and gave assurances that no vaccinations would take place until a replacement anaphylaxis kit was available.
