**Date of inspection:** 08/12/2025

### Pharmacy context and inspection background

This is a community pharmacy located in Sheffield, South Yorkshire. It dispenses NHS and private prescriptions. And it provides medicines in multi-compartment compliance packs to help people take their medicines at the right times. The pharmacy offers a range of other services including the 'flu vaccinations, the NHS Pharmacy First service, a substance misuse service and a home delivery service.

This was a full routine inspection of the pharmacy. The pharmacy was last inspected in November 2015.

**Overall outcome:** Standards not all met

**Required Action:** Improvement Action Plan

### Standards not met

#### Standard 3.2

- The pharmacy consultation room door has a clear window which allows visibility into the room from the retail area. This is not sufficient to protect people's dignity and confidentiality when receiving consultation services from the pharmacy team.

### Standard 3.5

- Areas of the dispensary are insufficiently lit. And so, pharmacy team members are carrying out dispensing activity in conditions which increase the risk of mistakes being made.

### Standard 4.3

- The pharmacy does not check or maintain records of the operating temperature ranges of each fridge it uses to store medicines. And so, it cannot demonstrate that medicines that require cold storage continue to be fit for purpose.

## Standards that were met with areas for improvement

### Standard 1.2

- The pharmacy team members make some changes to the way they work to improve patient safety. But, they do not always record details of the mistakes made during the dispensing process. And so, they may miss the opportunity to identify trends and make specific changes to the way they work.

### Standard 1.6

- The pharmacy keeps most of the records it is required to do by law. However, it doesn't keep complete records of higher-risk medicines returned to the pharmacy for destruction.
