Pharmacy reference: 1110328

Type of pharmacy: Community

Date of inspection: 03/06/2026

Pharmacy context and inspection background

This is a community pharmacy located in Sheffield, South Yorkshire. It dispenses NHS and private prescriptions. And it provides medicines in multi-compartment compliance packs to help people take their medicines at the right times. The pharmacy offers a range of other services including the 'flu vaccinations, the NHS Pharmacy First service, a substance misuse service, and a home delivery service.

This was a reinspection following an inspection in December 2025 where the pharmacy did not meet Standards 3.2, 3.5 and 4.3. This reinspection focused mainly on those Standards which had previously not been met. The pharmacy has improved against two of these standards. It has taken steps to ensure people's privacy is fully protected when speaking in its consultation room. And it has fitted new lighting in the dispensary, providing a bright working environment. Areas for improvement are still required to ensure medicines are stored safely and within the correct environment at all times.

Overall outcome: Standards not all met

Standards not met

Standard 3.1

- The pharmacy does not complete a suitable assessment of the risks and requirements when carrying out building works. This has led to it undertaking some tasks which require completion within registered pharmacy premises in parts of the building not currently registered with the GPhC.

Standard 4.3

- The pharmacy does not have effective processes to ensure all medicines are safe to supply. It holds medicines outside of the manufacturer's original packaging for prolonged periods of time when assembling them in multi-compartment compliance packs. And it does not monitor the operating temperature of its fridges. This means the pharmacy may supply medicines which are not suitable for people.
