Pharmacy context and inspection background

This is an outpatient pharmacy within Rotherham District General Hospital in South Yorkshire. Its main services are dispensing prescriptions for people attending the pharmacy's outpatient clinics including the ear nose and throat clinics, dermatology, oncology, and haematology clinics. The pharmacy also dispenses discharge medicines in multi-compartment compliance packs upon request from the hospital pharmacy department. The pharmacy sells a range of medicines, including Pharmacy (P) medicines to hospital staff and visitors.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in May 2016.

Overall outcome: Standards met

Required Action: Not Required

Areas of good practice

Standard 1.2

- The pharmacy has continual monitoring processes to support its team members in learning from mistakes they make during the dispensing process. Team members are good at reflecting on the cause of their mistakes and they act to reduce risk to prevent similar mistakes occurring. The team keeps these actions under review to ensure they remain effective. And it regularly shares information including learnings from incidents and prescribing interventions with the hospital trust to help inform its own risk management strategies.

Standard 4.2

- The pharmacy has a good range of embedded processes and checks to support its team members in delivering a safe and effective service. It keeps effective records of the interventions team members make during the dispensing process and the counselling they provide to support people in taking their medicines safely.
