Pharmacy name: Killamarsh Pharmacy

Address: 209 Sheffield Road, Killamarsh, SHEFFIELD, S21 1DX

Pharmacy reference: 1117247

Type of pharmacy: Community

Date of inspection: 04/08/2026

Pharmacy context and inspection background

This busy community pharmacy is located next to a medical centre in the centre of the village. Most people who use the pharmacy are from the local area and a home delivery service is available. The pharmacy dispenses NHS prescriptions, and it sells a range of over-the-counter medicines. The pharmacy supplies a large number of medicines in multi-compartment compliance aid packs to help people take their medicines at the right time. The pharmacy is open seven days a week and is open until late in the evenings most days.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in April 2016

Overall outcome: Standards met

Required Action: Not Required

Areas of good practice

Standard 1.2

- The pharmacy team records and analyses adverse dispensing incidents to identify learning points

which it incorporates into day-to-day practice to help manage future risks. And the pharmacy completes regular checks and audits to make sure it is operating safely.

Standards that were met with areas for improvement

Standard 1.6

- The pharmacy generally completes the records that it needs to by law but the responsible pharmacist (RP) record and some of the private prescription records are incomplete or inaccurate, which could make audit more difficult.

Standard 3.1

- The pharmacy has a website which provides useful information about the pharmacy, but some of the information is not up to date including the pharmacy's opening hours and details of the services provided.

Standard 4.2

- The pharmacy's delivery service is generally well managed but the pharmacy is not able to demonstrate that every medicine has been safely received by the patient or their representative. This means people might not have easy access to all of the information they need in the case of a query or problem.
