

Registered pharmacy inspection report

Pharmacy name: Pillbox Pharmacy

Address: 17 David Road, Poyle Industrial Estate, Colnbrook, SLOUGH, SL3 0DB

Pharmacy reference: 1118126

Type of pharmacy: Dispensing hub

Date of inspection: 07/08/2025

Pharmacy context and inspection background

This pharmacy is situated on an industrial estate near Heathrow. It is on the same site as Pillbox Chemists Ltd head office and the company's central warehouse. The pharmacy operates as a dispensing hub for three other pharmacies owned by Pillbox Chemists Ltd. The pharmacy also dispensed prescriptions issued by prescribers employed by Pillbox Chemists Ltd but this service was not assessed during this inspection.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in November 2023 and all standards were met. No pharmacist was physically present during the inspection.

Overall outcome: Standards not all met

Standards not met

Standard 1.1

- The pharmacy cannot demonstrate that it has considered and mitigated the risks associated with

its distance selling service. It cannot show that it has undertaken appropriate risk assessments for its services. In addition, the pharmacy has standard operating procedures (SOPs). But these have not been reviewed recently and the hub and spoke SOPs only reflect procedures relevant to a specific software that only some of the branches use. So, they may not reflect current best practice and it may be harder for team members to know the right process to use.

Standard 4.4

- The pharmacy cannot demonstrate that it has a robust system to deal with drug alerts and recalls. The last drug recall that staff could find during the inspection was from April 2025, and there was insufficient assurance that drug alerts and recalls were dealt with promptly.

Standards that were met with areas for improvement

Standard 1.3

- Although the pharmacy has a responsible pharmacist signed in, the pharmacist's absence is not always limited to the permitted duration. However, team members are aware that all pharmacy activities, including dispensing must be ceased during such instances.
