

Registered pharmacy inspection report

Pharmacy name: Cyncoed Pharmacy

Address: 372-374 Cyncoed Road, CARDIFF, CF23 6SA

Pharmacy reference: 1122826

Type of pharmacy: Community

Date of inspection: 28/11/2025

Pharmacy context and inspection background

This pharmacy is situated in a leafy suburb of Cardiff. It sells a range of over-the-counter medicines and dispenses NHS and private prescriptions. The pharmacy offers a range of services including provision of emergency hormonal contraception, treatment for minor ailments and a seasonal influenza vaccination service.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in June 2015.

Overall outcome: Standards met

Required Action: None

Areas of good practice

Standard 4.1

- The pharmacy works collaboratively with other healthcare professionals to promote the services it provides so that people know about them and can access them easily.

Standards that were met with areas for improvement

Standard 1.1

- There is no clear audit trail showing that a pharmacist has carried out a clinical check before a medicine is prepared and supplied. This presents a risk when the final accuracy check is completed by someone other than the pharmacist, as there is a small chance the medicine could be handed out without this clinical check. It may also make it harder for the team to understand what has happened if a mistake does occur.

Standard 1.6

- The pharmacy generally keeps the records it needs to by law. But prescriber details are sometimes missing from private prescription records and the nature of the emergency is not always clear for emergency supply records, so team members may not always be able to show exactly what has happened if any problems arise.
- Records for higher-risk medicines are generally well maintained. But when discrepancies occur, they are not always investigated straight away, which might lead to a delay in identifying and correcting any mistakes.

Standard 4.2

- Dispensing labels for some medicines are not marked to show who has been involved in the dispensing process. This might make it harder for the team to understand what has happened if a mistake occurs.
- The pharmacy's dispensing processes are largely safe and effective but higher-risk medicines awaiting collection are not always identified. And members of the pharmacy team do not always know when they are being handed out. So they might not always be able to check that these medicines are still suitable, or give people advice about taking them.

Standard 4.3

- The pharmacy team do not always store medicines tidily. This increases the chance that the wrong medicine could be supplied by mistake.

Principle 1: The governance arrangements safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 1: Inspection outcomes for standards under principle 1

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
1.1 - The risks associated with providing pharmacy services are identified and managed	Met	Area for improvement
1.2 - The safety and quality of pharmacy services are regularly reviewed and monitored	Met	
1.3 - Pharmacy services are provided by staff with clearly defined roles and clear lines of accountability	Met	
1.4 - Feedback and concerns about the pharmacy, services and staff can be raised by individuals and organisations, and these are taken into account and action taken where appropriate	Standard not inspected	
1.5 - Appropriate indemnity or insurance arrangements are in place for the pharmacy services provided	Met	
1.6 - All necessary records for the safe provision of pharmacy services are kept and maintained	Met	Area for improvement
1.7 - Information is managed to protect the privacy, dignity and confidentiality of patients and the public who receive pharmacy services	Met	
1.8 - Children and vulnerable adults are safeguarded	Met	

Principle 2: Staff are empowered and competent to safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 2: Inspection outcomes for standards under principle 2

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
2.1 - There are enough staff, suitably qualified and skilled, for the safe and effective provision of the pharmacy services provided	Met	
2.2 - Staff have the appropriate skills, qualifications and competence for their role and the tasks they carry out, or are working under the supervision of another person while they are in training	Met	
2.3 - Staff can comply with their own professional and legal obligations and are empowered to exercise their professional judgement in the best interests of patients and the public	Met	
2.4 - There is a culture of openness, honesty and learning	Standard not inspected	
2.5 - Staff are empowered to provide feedback and raise concerns about meeting these standards and other aspects of pharmacy services	Standard not inspected	
2.6 - Incentives or targets do not compromise the health, safety or wellbeing of patients and the public, or the professional judgement of staff	Standard not inspected	

Principle 3: The environment and condition of the premises from which pharmacy services are provided, and any associated premises, safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 3: Inspection outcomes for standards under principle 3

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
3.1 - Premises are safe, clean, properly maintained and suitable for the pharmacy services provided	Met	
3.2 - Premises protect the privacy, dignity and confidentiality of patients and the public who receive pharmacy services	Met	
3.3 - Premises are maintained to a level of hygiene appropriate to the pharmacy services provided	Standard not inspected	
3.4 - Premises are secure and safeguarded from unauthorized access	Met	
3.5 - Pharmacy services are provided in an environment that is appropriate for the provision of healthcare	Standard not inspected	

Principle 4: The way in which pharmacy services, including management of medicines and medical devices, are delivered safeguards the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 4: Inspection outcomes for standards under principle 4

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
4.1 - The pharmacy services provided are accessible to patients and the public	Met	Good practice
4.2 - Pharmacy services are managed and delivered safely and effectively	Met	Area for improvement
4.3 - Medicines and medical devices are: obtained from a reputable source; safe and fit for purpose; stored securely; safeguarded from unauthorized access; supplied to the patient safely; and disposed of safely and securely	Met	Area for improvement
4.4 - Concerns are raised when medicines or medical devices are not fit for purpose	Met	

Principle 5: The equipment and facilities used in the provision of pharmacy services safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 5: Inspection outcomes for standards under principle 5

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
5.1 - Equipment and facilities needed to provide pharmacy services are readily available	Met	
5.2 - Equipment and facilities are: obtained from a reputable source; safe and fit for purpose; stored securely; safeguarded from unauthorized access; and appropriately maintained	Standard not inspected	
5.3 - Equipment and facilities are used in a way that protects the privacy and dignity of the patients and the public who receive pharmacy services	Standard not inspected	

What do the summary outcomes for each principle mean?

Finding	Meaning
✓ Excellent practice	The pharmacy demonstrates innovation in the way it delivers pharmacy services which benefit the health needs of the local community, as well as performing well against the standards.
✓ Good practice	The pharmacy performs well against most of the standards and can demonstrate positive outcomes for patients from the way it delivers pharmacy services.
✓ Standards met	The pharmacy meets all the standards.
Standards not all met	The pharmacy has not met one or more standards.
