Pharmacy reference: 9010033

Type of pharmacy: Community

Date of inspection: 30/04/2025

Pharmacy context and inspection background

This community pharmacy is situated in a medical centre in a residential area on the outskirts of Sutton Coldfield. The pharmacy dispenses NHS prescriptions, private prescriptions and sells over-the-counter medicines. It also provides a range of services including NHS covid vaccination, NHS Pharmacy First, NHS Pharmacy Contraception Service, and NHS Community Pharmacy Blood Pressure Check Service.

This was an inspection of the pharmacy to follow up on information received by the GPhC. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in June 2019 and was meeting all of the Standards.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 1.1

- The pharmacy had Standard Operating Procedures (SOPs) which covered the operational

activities. Not all members of the pharmacy team had signed the SOP training logs as evidence that they had read the SOPs. As a result, the team may not always be working to the expected standards.

Standard 1.2

- Team members do not always record and review their near miss errors so they may miss opportunities to identify patterns and trends and make changes to the way that they work.

Standard 2.2

- The pharmacy doesn't have a regular pharmacist or pharmacy manager. This means there is a lack of leadership and accountability, and the pharmacy team is not always carrying out the daily, weekly and monthly tasks that a pharmacy is expected to do, in addition to dispensing activity. This means the pharmacy may not always operate as effectively as it could do.

Standard 4.3

- There are gaps in the fridge temperature monitoring records which means the pharmacy cannot demonstrate the fridge is always storing medicines within the required range for cold-chain medicines.
