Pharmacy context and inspection background

This pharmacy is in a former office building behind the shops in the centre of Wallington, Surrey. People can't visit the pharmacy in person as it provides all its services remotely. It dispenses people's NHS prescriptions which are sent to it electronically via its website, app and third-party apps. It delivers those prescriptions directly to people wherever they live in the UK.

This was a full routine inspection of the pharmacy. The pharmacy was last inspected in October 2017

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 4.2

- The pharmacy is not always recording an accurate measure of the temperature within its medicines fridge. Its team members reset the thermometer before taking a reading instead of afterwards, which over-writes the maximum and minimum temperature record. The fridge also has a significant buildup of frost so needs regular defrosting to help ensure the medicines inside

are not damaged. The responsible pharmacist was advised to contact the fridge manufacturer to identify the cause of it constantly frosting up and seek their advice.
