Pharmacy context and inspection background

The pharmacy provides a homecare medicines service which involves delivering ongoing medicine supplies to NHS Trusts. All of the treatments are initially prescribed by hospital prescribers. The pharmacy is located in a purpose-built industrial unit and the premises is not open to the public. The Company is registered with the MHRA and holds a Wholesale Distribution Authorisation.

This was a full reinspection following an intelligence led inspection in April 2025 where the pharmacy did not meet Standard 4.3 as it was unable to demonstrate that it had robust and effective controls in place to ensure that there is appropriate oversight and management of medicines known to be misused, and there were concerns that medicines were being diverted from the legitimate supply chain. This resulted in enforcement action and a Condition was imposed which restricts the provision of some services and remains in force at the time of this inspection. The enforcement action taken allows the pharmacy to continue providing other services, which are not affected by the restrictions imposed.
