Pharmacy context and inspection background

This pharmacy is located in a business centre unit on the outskirts of Cardiff. It is associated with Numan, a CQC-registered online prescribing service owned by Vir Health Ltd. The pharmacy's only service is dispensing private prescriptions for adults aged 18 and over which are written by prescribers employed by the prescribing service. The pharmacy mostly supplies prescription medicines for weight loss, but also supplies medicines for erectile dysfunction, premature ejaculation, hair loss and low testosterone levels. People do not visit the pharmacy in person and medicines are sent by post or courier.

This was a full routine inspection of the pharmacy. The pharmacy was last inspected in September 2023 and all standards were met.

Standards not met

Standard 1.1

- The pharmacy does not have sufficient assurances that the prescribing service it works with consistently verifies people's health information independently before prescribing weight loss medicines. This means that it cannot always be sure that the prescribing is safe and clinically appropriate.

Standards that were met with areas for improvement

Standard 4.2

- The audit trail for some medicines does not clearly show who was involved in the dispensing process. This might make it harder for the team to investigate any dispensing incidents related to these medicines.
