Pharmacy context and inspection background

This is a community pharmacy in a predominantly residential area of Inverness. Its main services include dispensing of NHS prescriptions, and it provides medicines in multi-compartment compliance packs to help people take them properly. The packs are dispensed at an offsite pharmacy hub owned by the same group. The pharmacy also provides medicines to people living in local care homes. Team members advise on minor ailments and medicines use.

This was a reinspection following an inspection in November 2025 where the pharmacy did not meet Standards 1.1 and 4.3. This reinspection focused on those Standards which had previously not been met. Since the last inspection, the written procedures have been updated to reflect current practice. All pharmacy medicines are now stored as they should be, including higher risk medicines. And there have been amendments to the pharmacy procedure for checking expiry dates of medicines stored outside of the dispensing robot.

Overall outcome: Standards met
