Pharmacy context and inspection background

This is a pharmacy that offers its services to people only through its website. People cannot visit the pharmacy in person and all medicines are delivered. The pharmacy is based in two units of an industrial premises in Cribbs Causeway in Bristol. The pharmacy delivers medicines to people in England only. The main business of the pharmacy is dispensing NHS prescriptions. It dispenses the majority of these prescriptions for people in individual pouches. It also offers a pharmacist-led private weight management service.

This was a routine inspection of the pharmacy which focused on the core standards relating to patient safety. Not all of the standards were inspected on this occasion. The pharmacy was last inspected in July 2022. The pharmacy was previously rated standards all met.

Standards not met

Standard 1.1

- Although the pharmacy team have access to summary care records (SCRs) to verify some people's medical history, they cannot show that they independently verify people's height, weight and/or BMI when issuing prescriptions for weight management medicines. And a proportion of the people it provides weight management treatments do not have an up-to-date weight and BMI on the SCR. So, information cannot be independently checked in the same way for these people. This means the pharmacy cannot be sure that it is getting all of the information needed to make safe prescribing decisions.

Standard 2.6

- The pharmacy website offers discount codes linked to weight loss medicines, which is not in line with MHRA and ASA guidance.
