**Pharmacy reference:** 9011903

**Type of pharmacy:** Internet / distance selling

**Date of inspection:** 07/01/2025

### Pharmacy context and inspection background

This is an NHS pharmacy offering services to people at a distance through its website [medifastpharmacy.co.uk](http://medifastpharmacy.co.uk). People can also contact the pharmacy by telephone and access NHS and private consultation services through video calls and pre-booked appointments onsite. The pharmacy supplies some medicines in multi-compartment compliance packs, designed to help people to take their medicines. It delivers all medicines to people through its delivery services.

This was the first inspection of the pharmacy since it was registered.

**Overall outcome:** Standards met

**Required Action:** None

### Standards that were met with areas for improvement

#### Standard 1.1

- The pharmacy does not always keep effective records of the date its procedures are reviewed.

And team members do not always complete learning records to show they have read and understood the procedures. This means it is more difficult for the pharmacy to show that it is regularly reviewing its procedures and in ensuring its team members are up to date with their learning.

- The pharmacy provides a private face-to-face and video call weight management service. It has informally considered the risks of providing the service. But it does not have a written risk assessment which sets out how it is managing and monitoring these risks. So, it is difficult for the pharmacy to formally review, monitor and mitigate all risks with the service.
