Pharmacy context and inspection background

This pharmacy is located in an industrial estate in Welwyn Garden City, Hertfordshire. It is not open to the public. Its sole activity is to dispense NHS prescriptions on behalf of the company's community pharmacy, Peartree Pharmacy. Dispensed prescriptions are sent back to the pharmacy for people to collect them.

This was the first inspection of the pharmacy since it was registered in June 2023.

Overall outcome: Standards not all met

Standards not met

Standard 1.1

- The pharmacy does not have written standard operating procedures (SOPs) that reflect all the activities the pharmacy carries out. The SOPs it does have, have not been signed and reviewed by the superintendent pharmacist. There is also no evidence that team members have read them. This means the pharmacy cannot demonstrate that its team members know how to work safely

and effectively.

Standard 1.3

- Team members are not clear about the activities they can and cannot do in the absence of the responsible pharmacist. And the pharmacy's SOPs do not define individual roles and responsibilities of team members. This increases the chances team members undertake tasks for which they don't have the right skills and qualifications or carry out tasks without the appropriate supervision.

Standard 1.6

- The pharmacy does not make or keep responsible pharmacist (RP) records. And so it cannot show who has been responsible for overseeing the pharmacy's activities when the pharmacy is open.

Standard 1.7

- The pharmacy does not always separate confidential waste from general waste. So, it cannot show that personal information is always protected against inadvertent disclosure.

Standard 4.4

- The pharmacy cannot show what action it has taken about previous safety alerts and recalls. This means the pharmacy cannot demonstrate that it responds appropriately to safety alerts and recalls to ensure people only receive medicines which are suitable for use.

Standards that were met with areas for improvement

Standard 2.4

- The pharmacy does not provide its team members with learning opportunities or regular feedback. So its team members may not always get the support they need to learn and develop.
