

Registered pharmacy inspection report

Pharmacy name: Care Pharmacy

Address: 2358-2360-Dumbarton Road, Glasgow, G14 0JX

Pharmacy reference: 9012247

Type of pharmacy: Community

Date of inspection: 12/06/2025

Pharmacy context and inspection background

This is a community pharmacy in Glasgow. It dispenses NHS prescriptions including supplying medicines in multi-compartment compliance packs. The pharmacy dispenses private prescriptions and pharmacy team members advise on minor ailments and medicines use. They provide over-the-counter medicines and prescription-only medicines via patient group directions (PGDs).

This was a reinspection following an inspection in February 2025 where the pharmacy did not meet Standards 1.1 and 2.2. This reinspection focussed on the Standards which had previously not been met. Since the last inspection, the pharmacy has enrolled team members on appropriate training courses. And it now has defined procedures and working arrangements for all of its dispensing services.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 1.1

- The pharmacy team are able to show how they work to new procedures for operating the dispensing robot. But these procedures do not always accurately define the team members roles and responsibilities. They make reference to a pharmacy technician for some tasks when the pharmacy does not currently employ one. And they refer to the pharmacist carrying out accuracy checks when this was completed by bar code technology. So the procedures should be reviewed regularly to ensure they reflect the pharmacy's current practice.
