Pharmacy context and inspection background

This is a pharmacy with an NHS distance-selling contract situated in a mixed industrial unit in Leicester. The pharmacy dispenses NHS prescriptions. It offers a private online weight management service. It also provides a number of other private services including hair loss and erectile dysfunction. It sells over-the counter medicines online.

This was a reinspection following an inspection in September 2025 where the pharmacy did not meet Standards 1.1,1.2,1.4 and 4.2. This reinspection focused on those Standards which had previously not been met.

Since the last inspection, the pharmacy has introduced risk assessments that cover all of the services that it provides. The pharmacy has completed audits of its prescribing service. And it has improved its complaints process and now responds to most queries in a timely manner. The pharmacy has introduced new processes to independently verify information provided by people accessing their services. And has amended its questionnaire so that if an answer is changed the person must explain why the change has been made.
