### Standards that were met with areas for improvement

#### Standard 3.1

- The pharmacy's premises are generally suitable for providing healthcare services. But some areas of the pharmacy are cluttered which detracts from the professional image of a healthcare setting.

#### Standard 4.3

- The pharmacy gets its medicines from licensed wholesalers, and it keeps its medicines in appropriate storage conditions. However, it doesn't always store its medicines in a tidy and organised way. This can increase the chances of a dispensing mistake happening when picking medicines from the shelves.
