Pharmacy context and inspection background

This community pharmacy is located next to a medical centre in Ratby. Its main activity is dispensing NHS prescriptions, some of which it delivers to people's homes. It also sells medicines over the counter and offers the NHS Pharmacy First service and Contraception service. It provides seasonal flu vaccinations and supplies medicines in multi-compartment compliance packs to some people who need this support to help them take their medicines at the right time. It also supplies medicines to some people receiving substance misuse treatment. The pharmacy also provides a private weight loss management service.

This was the first routine inspection of the pharmacy since it was registered in April 2024.

Overall outcome: Standards met

Required Action: Not Required

Areas of good practice

Standard 4.2

- Members of the pharmacy team routinely counsel people to ensure they know how to take their

medicines safely. This includes people who take higher-risk medicines or medicines that require ongoing monitoring. Details of any counselling are recorded onto the person's medication record. This allows clinical information to be available for future reference.

Standards that were met with areas for improvement

Standard 1.2

- Pharmacy team members talk about the mistakes they make to try to learn from them. And they make records of the mistakes they make. But they do not regularly review these records, so they may be missing opportunities to spot patterns or trends and take effective action to help prevent the same sort of things happening again.
