Pharmacy reference: 9012419

Type of pharmacy: Internet

Date of inspection: 16/02/2026

Pharmacy context and inspection background

This pharmacy is situated near to a residential area. It is a distance-selling pharmacy, so people do not visit it in person. It has its own website, www.openshawinternetpharmacy.co.uk, where people can register for its services. This was an intelligence-led inspection of the pharmacy following information received by the GPhC. Not all the Standards were inspected on this occasion and the inspection mainly focused on the pharmacy's weight management service. The pharmacy was last inspected in November 2024, and all Standards were met.

Overall outcome: Standards not all met

Required Action: Improvement Action Plan

Standards not met

Standard 1.2

- The pharmacy does not have defined procedures for reviewing weight management service concerns and incidents. In addition, there is no system in place to audit this service. This limits opportunities to learn and improve and impartiality due to its governance arrangements.

Standard 4.2

- The pharmacy's processes do not include appropriate verification of the patient's Body Mass Index or their medical history for its weight management service, including any treatment from another provider, and it does not share information with the patient's GP. So, the pharmacy may not easily be able to demonstrate that treatment is appropriate for the person before supplying it.
- The pharmacy's procedures do not include a mechanism to check how a person's weight-loss is progressing and verify it periodically. So, the pharmacy may have difficulties confirming that ongoing treatment is still suitable for the person.

Standards that were met with areas for improvement

Standard 1.1

- The pharmacy has Patient Group Directions for its weight management service, but the team members providing the service have not signed to confirm they have agreed to follow its contents and work within it.
