Pharmacy context and inspection background

This pharmacy offers NHS essential services to people at a distance through its website rexpharmacy.co.uk. People access the pharmacy premises to purchase medicines and to access some consultation services, including a private weight management service. The pharmacy supplies some medicines in multi-compartment compliance packs, designed to help people to take their medicines. It delivers all dispensed medicines to people through its delivery services.

This was an intelligence-led inspection of the pharmacy following information received by the GPhC. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in January 2025 and all standards were met.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 1.6

- The pharmacy keeps most of its records as required by law. But it does not always prioritise the

completion of these records when workload increases to support it in ensuring they remain accurate and up to date at all times.

Standard 4.2

- Overall, the pharmacy manages its services safely. But it does not always take the opportunity to engage with people taking higher-risk medicines to ensure they are receiving regular monitoring checks.

Standard 4.3

- The pharmacy has appropriate equipment to support it in storing medicine waste. But it does not always process patient returned medicines in a timely manner. This increases the risk of waste medicines such as those requiring safe custody not being held safely and securely.
