Pharmacy reference: 9012511

Type of pharmacy: Internet / distance selling

Date of inspection: 31/10/2025

Pharmacy context and inspection background

This is a private pharmacy in a business unit in Leicester. It provides a private online prescribing service mainly for weight management and sells Pharmacy Only (P) and General Sales List (GSL) medicines online.

This was a targeted reinspection following an inspection in March 2025 where the pharmacy did not meet Standards 1.1 and 1.6. This reinspection focused on those Standards which had previously not been met. The pharmacy now has risk assessments that cover the whole of the service including each of the medicines and treatments which are provided. The pharmacy is following its guidance for the sale of pharmacy only (P) medicines. This includes an ID check for medicines at risk of abuse and recording the reason a sale is approved. The prescriber now routinely records their prescribing decision for the weight loss management service. But further improvement is needed to make sure that people do not receive weight loss treatment which is not suitable for them.

Overall outcome: Standards not all met

Standards not met

Standard 4.2

- The pharmacy accesses the person's Summary Care Record to independently verify their clinical information and, where it is recorded, their BMI. But where the BMI is not available they are using a photograph provided by the person to make this assessment. It can be difficult to verify someone's weight and BMI from a photo alone. This means people may receive treatment which is not suitable and safe for them to take.
