Type of pharmacy: Internet

Date of inspection: 31/07/2025

Pharmacy context and inspection background

This is an independently owned pharmacy. It is situated in a small room within an industrial unit, in a modern industrial estate. It belongs to a large international online company which produces skin care products. The pharmacy is a very small part of the business. It is closed to the public and offers its services over the internet only. It does this through its website <https://www.theorganicpharmacy.co.uk>. It dispenses private prescriptions for a limited range of products. And it delivers medicines to people. Its pharmacy has had very little pharmacy related activity since it opened.

This was the first routine inspection of the pharmacy since it was registered in September 2024.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 3.2

- The pharmacy room is used by non-pharmacy staff. And so, people who may not need people's

information could have access to it. And so, there is a risk that people's information is not always as secure as it should be.

Standard 5.1

- While the pharmacy has most of the equipment and facilities it currently needs, it does not have a proper patient medication record system. This means that pharmacists may not have access to adequate patient records and information when dispensing their medicines.

Principle 1: The governance arrangements safeguard the health, safety and wellbeing of patients and the public
