### Pharmacy context and inspection background

This pharmacy is situated in a parade of retail outlets on a main road. It mainly dispenses NHS prescriptions and it supplies a large number of people their medicines in multi-compartment compliance packs to help them manage their treatment. The pharmacy provides other NHS services including the New Medicine Service (NMS), Pharmacy First, and COVID-19 and influenza vaccinations. It has a private in-person weight loss treatment service via a patient group direction (PGD), and it provides a home delivery service.

This was a desktop inspection following an inspection in June 2025 where the pharmacy did not meet Standard 2.2. This reinspection focused on the Standard which had previously not been met. The pharmacy confirmed that all unqualified pharmacy team members were completing a recognised training qualification for their role.
