Pharmacy context and inspection background

This pharmacy provides its services at a distance but provides some face-to-face private services. It is located within an office building and in addition to NHS dispensing, it provides the Pharmacy First Service and the New Medicines Service (NMS). The pharmacy supplies medicines in multi-compartment compliance packs to people who need this support to manage their medicines at home. And it offers a private weight loss clinic, travel clinic, period delay and urticaria treatment service via Patient Group Directions (PGDs).

This was the first routine inspection of the pharmacy since it was registered in October 2024.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 1.1

- Although the pharmacy has undertaken risk assessments about its services which outline the risks, mitigation and person responsible, some risk assessments do not cover all of the potential risks involved. For example, it has a risk assessment for its delivery service. But this is brief and does not consider all the potential risks of using a third-party delivery service.
