Pharmacy reference: 9012570

Type of pharmacy: Hospital

Date of inspection: 20/05/2025

Pharmacy context and inspection background

This distance-selling pharmacy mainly supplies clozapine and other medications to treat mental health conditions for out-patients under the care of North Manchester General, Trafford General and Wythenshawe hospitals (the hospitals). The pharmacy provides a large number of people's medicines in multi-compartment compliance packs to help them manage their treatment. It also supplies prescription medication to people under the care of a local prison. The pharmacy delivers all the medication it supplies to the hospitals and prison.

This is the first routine inspection of the pharmacy since it registered in October 2024.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 1.1

- The pharmacy has written procedures for the services it provides, and it has a contingency plan in case it does not have a pharmacist. However, it does not have a written procedure covering the

responsible pharmacist's absence, which means team members may not know what is expected of them if this situation arises.

Standard 1.6

- The pharmacy has a record that identifies the responsible pharmacist on duty each day. However, the record does not always include the time the pharmacist ceased acting as the responsible pharmacist. This may mean that the record is less reliable.

Standard 4.2

- The pharmacy team checks patient's records before issuing treatments and it provides appropriate warning information when supplying medicines. However, the pharmacy does not always seek confirmation that at-risk patients have been counselled on valproate when this information is missing from their record. This means that it cannot always assure itself that this step has been completed.

Standard 4.3

- The pharmacy team regularly checks medicine stock expiry dates. But it does not always keep records of these checks as confirmation.
