Pharmacy context and inspection background

This is a private pharmacy in a business centre in Folkestone town centre. It dispenses private prescriptions and provides a face-to-face prescribing service mostly for acute infections. And it provides a weight loss service and vitamin B12 service using patient group directions.

This was a re-inspection following an inspection in May 2025 where the pharmacy did not meet Standards 1.1, 1.6 and 4.2. This re-inspection focused on those Standards which had previously not been met. Following the last inspection, the pharmacy has carried out risk assessments for its prescribing service and has undertaken an audit. It keeps consultation records for all treatments and refusals, and it routinely shares information with people's regular prescriber. And the pharmacy now carries out all its consultations face-to-face.

Overall outcome: Standards met

Required Action: Not Required

Standards that were met with areas for improvement

Standard 1.6

- The pharmacy keeps records of consultations for its prescribing service, but these are handwritten and not all consultation notes are clearly legible. This might make it harder for the pharmacy to show why a medicine has been prescribed.

Principle 1: The governance arrangements safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**
