Pharmacy context and inspection background

This is a private pharmacy which offers its services to people only through its website www.oushkpharmacy.com. People generally don't visit the pharmacy unless they have arranged to collect their medicine in person and most medication is supplied to people using courier services. The pharmacy mainly prescribes and supplies treatments for weight loss, but a few other prescription medicines are available. People request a medication by completing an online consultation. The prescribing service is provided by pharmacist prescribers who work remotely. The pharmacy also sells a small number of over-the-counter medicines, and some skincare toiletries.

This was a reinspection of the pharmacy following an inspection in May 2025 where the pharmacy did not meet Standards 1.1, 1.2, 1.6, 4.2 and 4.3 and an Improvement Notice was served. This reinspection focused on those Standards which had previously not been met.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 1.6

- Consultation records were generally more detailed and comprehensive, but prescribers sometimes used preformatted or templated wording that was not always adapted to reflect the individual patient's circumstances. This lack of personalisation may make it more difficult to clearly demonstrate the prescriber's clinical reasoning and could impact the quality of ongoing care.
