### Pharmacy context and inspection background

This is a distance-selling pharmacy on a local parade of shops in Sunderland. It dispenses NHS prescriptions, and these medicines are delivered to people's home. The pharmacy provides vaccinations for flu and COVID19. The pharmacy also provides a range of private clinical services, which people make appointments for via the pharmacy's website [www.veritas-pharmacy.co.uk](http://www.veritas-pharmacy.co.uk). These services are mainly delivered through face-to-face consultations and include weight loss, minor ailments, travel vaccinations and ear wax removal. And they are delivered under private prescriptions from its pharmacist independent prescriber and patient group directions. The pharmacy has over-the-counter medicines available for purchase via its website.

This was a reinspection following an inspection in June 2025 where the pharmacy did not meet Standards 1.1, 1.2 and 4.2. This reinspection focused on those Standards which had previously not been met. Following the last inspection, the pharmacy has updated its risk assessments and written procedures which now contain more detail and cover all services. It has a schedule of audits relating to its private services and has completed baseline audits. The pharmacist independent prescriber creates legally valid prescriptions, which the pharmacy dispenses.
