Pharmacy context and inspection background

This is a distance selling pharmacy based in Bolton. It offers its services to people in the UK through its website, www.mychemistplus.co.uk. People cannot visit the pharmacy in person. The pharmacy has a prescribing service provided by a pharmacist prescriber. The website offers prescription only medicines for two conditions, but the pharmacy mainly supplies antibiotics for dental care.

This was the first routine inspection of the pharmacy since it was registered in January 2025.

Standards not met

Standard 1.6

- The pharmacy does not keep a record of medicines that are supplied against private prescriptions. This is a legally required record.

Standards that were met with areas for improvement

Standard 1.1

- The pharmacy has risk assessments and policies to support the services it provides. However, there is an opportunity to strengthen these by reviewing the duration of medicinal treatments prescribed, ensuring appropriate communication with the patients' regular doctor or dentist is provided, and making sure the medicines that are supplied align with both local and national prescribing guidelines.

Standard 2.1

- The prescribing pharmacist has completed relevant training to support their competency in managing conditions such as dental abscesses and other minor ailments. To further enhance clinical decision-making and ensure alignment with current best practices, it would be beneficial for the pharmacist to undertake regular, formalised training. This may include accredited clinical updates, antimicrobial stewardship programmes, and condition-specific modules tailored to dental infections and related prescribing responsibilities.
