Pharmacy context and inspection background

The pharmacy is in the village of Sharlston Common. It has an NHS distance selling contract to dispense NHS prescriptions and deliver them to patients. The pharmacy supplies multi-compartment compliance packs to help several patients take their medicines. The pharmacy's website www.belleislepharmacyonline.co.uk provides patients with details of the services offered and how to contact the pharmacy team.

This was the first inspection of the pharmacy since it was registered in May 2025.

Overall outcome: Standards met

Required Action: Not Required

Standards that were met with areas for improvement

Standard 1.1

- The pharmacy has up-to-date written procedures kept on an electronic platform which provide team members with information to support the safe and effective delivery of its services. Team

members demonstrate a clear understanding of their roles and how to carry out activities safely but they could not access the written procedures during the inspection. And the procedures do not cover all aspects of the dispensing process including how the pharmacy uses bar code scanning technology to support the accuracy check of dispensed medication. These factors mean there is a risk the team may not always follow current and correct procedures.
