Pharmacy context and inspection background

This pharmacy is situated in an office unit. It is a distance-selling pharmacy, so people do not visit it in person. It has its own website, www.theflorenceclinic.co.uk, where people can register for its services, which include the prescribing and supplying of weight management treatments.

This was the first routine inspection of the pharmacy since it was registered in June 2025.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 1.6

- The pharmacy independently verifies people's medical history as part of its weight management service. But it does not always clearly document this in relation to the service's exclusion criteria. So, the pharmacy may have difficulties easily demonstrating that initiating each treatment is safe.

Standard 4.2

- The pharmacy does not always confirm if people have previously obtained treatment from another weight management service provider. This means the pharmacy may not easily be able to demonstrate that it has properly assessed whether further treatment is appropriate for the person before supplying it.
