Type of pharmacy: Community

Date of inspection: 27/01/2026

Pharmacy context and inspection background

This community pharmacy is in a small shopping precinct in Coventry, West Midlands. It dispenses NHS prescriptions, sells a range of over-the-counter medicines and it supplies medicines in multi-compartment compliance packs to a handful of people who need assistance in managing their medicines safely at home. The pharmacy provides the NHS Pharmacy First service, New Medicine Service, hypertension case-finding service, Pharmacy Contraception Service and substance misuse treatment. The pharmacy also offers weight management and travel vaccinations services under private patient group directions.

This was the first routine inspection of the pharmacy since it was registered in July 2025.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 1.6

- The pharmacy generally keeps the records it needs to by law. But its records about private

prescriptions do not always include the correct prescriber details. And its records about Responsible Pharmacist do not include the time the duty was ceased. This makes the records less reliable in the event of a future query.

Standard 4.2

- The pharmacy generally provides its services safely. But it doesn't always include descriptions of medicines on the multi-compartment compliance packs it provides. This could make it harder for patients or their carers to identify the contents of these packs. And not all packs have a complete audit trail to show who has dispensed and checked them. This could make it more difficult for the pharmacy to handle queries or investigate mistakes.
