Pharmacy context and inspection background

This community pharmacy is located in the village of Horsmonden in Kent. It provides a variety of services including selling Pharmacy only (P) medicines and dispensing of NHS and private prescriptions. It also provides the Pharmacy First service and a travel vaccinations service under Patient Group Directions (PGDs). It provides medicines in multi-compartment compliance packs to people who need extra support taking their medicines.

This was the first routine inspection of the pharmacy since it was registered in August 2025.

Overall outcome: Standards met

Required Action: Not Required

Standards that were met with areas for improvement

Standard 1.1

- The pharmacy has a set of standard operating procedures (SOPs), and these have been read by the team members. But the SOPs available during the inspection do not cover all aspects of the

pharmacy service such as dealing with complaints or operating in the absence of a responsible pharmacist. So, the team may not have access to all of required the procedures it needs. However, team members knew what to do in these circumstances and were observed working in a safe manner during the inspection.

Standard 3.1

- Some areas of the floor and desktop areas of the dispensary are cluttered which could increase the risk of errors occurring or team members injuring themselves.

Standard 4.4

- The pharmacy receives safety alerts and recalls and is able to action them as well as recording what action was taken and archiving the alerts after actioning. However, the pharmacy is behind on recording the action taken for some alerts which could increase the risk of alerts not being recorded or archived correctly.
