

Registered pharmacy inspection report

Pharmacy name: Barnsley Delivery Chemist

Address: Unit K02, 21 The Glass Works, Barnsley, South Yorkshire, S70 1GW

Pharmacy reference: 9012934

Type of pharmacy: Internet

Date of inspection: 31/03/2026

Pharmacy context and inspection background

This pharmacy is located in a closed unit in a shopping centre. Members of the public do not usually visit the pharmacy in person unless they are attending a private consultation. Instead, the pharmacy delivers medicines to people in the local area. The pharmacy dispenses NHS prescriptions, and it offers a number of private services including ear wax removal.

This was the first routine inspection of the pharmacy since it relocated from nearby premises in January 2026.

Overall outcome: Standards not all met

Standards not met

Standard 1.6

- The pharmacy's controlled drug (CD) records are not adequately maintained and checks of CD registers found some inconsistencies. Running balances of CDs are not regularly audited so missing entries might not be identified promptly.

Standards that were met with areas for improvement

Standard 1.1

- The pharmacy has standard operating procedures (SOPs) for the services provided, but these are not always reviewed in a timely manner to reflect changes in practice. And some team members have not confirmed their understanding of the SOPs, which means they may not always work effectively or fully understand their roles and responsibilities.

Standard 1.2

- The pharmacy has procedures in place to deal with dispensing incidents and near misses, but these are not always followed, and team members do not always record their errors. This could make it harder for the team to review mistakes and identify any patterns or trends, and it could be missing out on opportunities to make the pharmacy's services safer.

Standard 4.2

- The services are reasonably well managed, but the pharmacy does not have robust audit trails for its home delivery service. This is not in line with its written procedures and may make it harder for the team to deal with any queries or problems that arise.
