**Premises standards failed:**

1.1, 1.6, 2.2, 4.2

**Summary:**

An inspection of the pharmacy found that the pharmacy was providing a face-to-face private prescribing service. The evidence gathered indicated systemic weaknesses in the way the service was provided. The pharmacy was not keeping records about the consultations it had with people, or the prescribing decisions made. It did not have prescriptions covering the supplies of medicines it had made as part of the prescribing service. And there was a lack of assurance that the prescriber was only prescribing within their clinical competency.

**Conditions imposed:**

The pharmacy must not provide a prescribing service. This means that it must not issue any private prescriptions to any patients where these are written by any prescriber employed by, working for, or on behalf of the pharmacy, or working at the pharmacy.
