And the pharmacy has not yet provided sufficient assurance that its controlled drug registers are up to date. Therefore, an Improvement Notice is necessary to ensure compliance.

Improvements required:

1. The pharmacy must ensure that it has controlled drug registers for all the Schedule 2 controlled drugs it stocks, as defined in the Misuse of Drugs Regulations 2001 (as amended).
2. The pharmacy must demonstrate that as far as practicable, entries in its controlled drug registers are up to date. This includes the period on and before 15 April 2026 where the pharmacy did not

have any registers in place. The pharmacy must be able to show what steps it has taken to identify, rectify, and prevent missed entries and must retain evidence showing that all reasonable avenues have been pursued to ensure compliance.

3. The pharmacy must ensure that it maintains running balances for its Schedule 2 controlled drugs. And it must be able to demonstrate that it has a written procedure to investigate any discrepancies between the running balance and the stock held.
