Summary:

After receiving information that the pharmacy was supplying against prescriptions issued by an online prescribing service that was not registered with an UK regulator, an inspection of the registered pharmacy on 25 August 2022 has found system wide failures in the operation of the pharmacy which presents a serious risk to patient safety. The risks are heightened by the nature of the services provided including the online supply of high-risk medicines liable to abuse, misuse and overuse and medicines which need ongoing monitoring, with inadequate risk management and safeguarding in place.

Conditions imposed:

1. The pharmacy must not sell or supply any medicines against private prescriptions issued by online prescribing services.
