Summary:

The pharmacy was inspected on 17 September 2026 and was found to be dispensing medicines for third-party prescribing services. The medicines dispensed included large volumes of medicines liable to misuse. The pharmacy has not sufficiently considered the associated risks of providing its service at a distance, and could not demonstrate that it kept the necessary records about the prescriptions it dispensed for the third-party prescribing services. There were significant weaknesses in the pharmacy's governance with respect to this service

Conditions imposed:
