Enforcement action taken:

Conditions on pharmacy premises - (The Medicines Act – Section 74D)

Effective date:

1 August 2025

Premises standards failed:

N/A

Summary:

During an inspection on 18 June 2025, the pharmacy was found to be supplying weight-loss medicines to people based in overseas countries. The evidence gathered indicates systemic weaknesses in the governance arrangements for the remote supply of these medicines. Following the notice of intention to impose conditions, the pharmacy submitted evidence that it had ceased overseas supplies. Whilst this goes some way to address the matters of concern identified, there is insufficient assurance that the pharmacy would be able to provide the service safely in future should it decide to restart these supplies.

Conditions imposed:

1. The pharmacy must not commence or resume any service that involves the supply of medicines to people based overseas without notifying the General Pharmaceutical Council inspector

Outcome:

Ongoing
