Conditions on pharmacy premises - (The Medicines Act – Section 74D)

Effective date:

1.1, 4.2

Summary:

At the inspection of 8 January 2026, the pharmacy was found to be supplying medicines including medicines liable to misuse. It was supplying these medicines at a distance against prescriptions generated by a third-party website. The evidence gathered indicates systemic weaknesses in the governance arrangements for the remote supply of these medicines. The pharmacy has not sufficiently considered the associated risks of providing this service at a distance, and its governance checks are not robust.

Conditions imposed:

1. The pharmacy must not sell or supply any prescription-only medicines in relation to any prescribing service which prescribes via any online website or platform.
