Premises registration number:

9012676

Enforcement action taken:

Conditions on pharmacy premises - (The Medicines Act – Section 74D)

Effective date:

7th September 2026

Premises standards failed:

NA

Summary:

Following an inspection of the pharmacy on the 1st of June 2026, the GPhC subsequently obtained information from pharmaceutical wholesalers about the medicines the pharmacy had received. This information showed the pharmacy had obtained a high volume of medicines which it cannot show it has received legal prescriptions or orders for. The pharmacy has been unable to properly account for this stock. Serious failings were found with relation to the pharmacy's ordering, governance, and oversight of controlled drugs and other medicines with potential for misuse or diversion including weight-loss injections and cyclizine. This represents a serious risk to public safety. It is therefore necessary to make the pharmacy subject to conditions.

Conditions imposed:

1. The pharmacy must not obtain, sell or supply any controlled drugs from Schedule 1 to 5 of the Misuse of Drugs Regulations 2001, (as amended).
2. The pharmacy must not obtain, sell or supply any prescription-only medicines.
3. The pharmacy must not obtain, sell or supply any products containing cyclizine.

Outcome:

Ongoing
